Dear Jerry

We spoke a little while ago as a result of Julie Bennett, Well Being, suggesting I contact you in relation to my suffering harassment.

You may recall my telling you my views of my local police, Kensington & Chelsea, leading me to say that there was no point contacting it for assistance.

On 16 and 20 March my US ISP received the attached emails from "Simon Dowling, TDC, Community Safety Unit – Notting Hill Police Station". (My reply is captured on my website under 20 March)

As Mr Ladsky has now approached KPMG in an attempt to get my site closed down by also making the claim that my site contains anti-Semitic comments, I supplied a copy of both emails to Peter Bassett, Partner in my group.

The view is that the emails appear somewhat odd and therefore unexpected from the police.

Peter suggested I contact you.

I would be most grateful for your assessment.

Thank you.

Kind regards

Noëlle Rawé

Noelle

We do think these look a bit odd and 'un-policelike'. It might be worth showing them to Jerry Nelson, to see what he thinks.

Kind regards

Peter,

As, this morning, I could not remember the precise wording of the emails my website Host received from the police, I attach the full copy – for both: 16 and 20 March.

In relation to the 20 March email, I only captured the last part on my site last night – as well as updated the file on my site. (My attention had been caught by the other claims in his emails)

This last part is where the police uses the term "incident" and states that it cannot do anything – other than record it.

Kind regards

Noëlle Rawé

**“Odd”** (below comment from Bassett): an ‘interesting’ euphemism for highly vicious, malicious, defamatory, xenophobic, racist accusations against me to my website Host = criminal communications ([Overview # 13](#))

**Peter suggested I contact you.**

I would be most grateful for your assessment.

Thank you.

['The Brotherhood' \(Persecution # 6\)](#) 'had' to show 'some disapproval'.

From talking to Nelson, I immediately felt that he was an **ex.cop** – and not one of the best kind!
