Dear Julie

For the last half-hour I am trying to compose a reply to your email. It's taking me down the root of explaining what is basically the 'why not'.

The upshot of it all is that my situation is getting worse and worse – and I have come to terms with that. I'll see it to the last breath in my body – however that comes - because walking away without what I have worked for and managed to save (which was not a great deal) is not an option. I am going to have to live the rest of my life – nobody else will do that for me. And I want to live the rest of it with dignity which, includes being financially independent.

In addition, call it a difference in culture, religious upbringing, principles with which I was brought up... whatever, but nobody will me accept that it is okay for somebody to come and steal from me – although I did bend over backwards extensively on these when I accepted the £6,350 offer which, legally, I did not owe.

That was 3.5 years ago. It could have been called a day then and let me get out of that nightmare block of flats. But, no: revenge became the top priority, and the more I fight back, the best I can within my own means, in response to the ongoing attacks since 2003, the greater the degree of revenge. That's the mentality, psychological make-up of the people I am dealing with. Probably my being a woman and of foreign origin further fuels the revenge: "how dare I do that?" and is bruising some egos. Well, I am not going to lie down and let myself be kicked – I'll stand up for as long as I can and fight back.

So, given my current situation – and the outlook on the horizon - I see no point having a health assessment. Good or bad, I do not wish to know. As to the things I should do to maintain myself in the best health I can, I am careful about nutrition, and take vitamins, minerals, etc. Other things such as exercise (which I loved doing), going to art galleries, concerts, etc have gone by the wayside due to constantly having to deal with attacks (so far this year there have already been some very vicious ones). Dealing with the attacks also means that my annual leave is being swallowed up. At least, I managed to get one week in France in January. I have also made arrangements to avoid having to stay in the flat which allows me to have some 'normality' back in my life.

It would take a miracle for things to change. That's hoping for too much. Oh well, at least I will be remembered for something: the one who had the guts to say "Non !" ☺

Thank you for the offer to meet, but I cannot see how you can help me above what you have already done.

Dear Noelle

Thank you for your reply.

I haven't heard from you in a while and wanted to ensure you are well and your resilience levels are high. I appreciate your comments of your situation and want to ensure you access the various support mechanisms in place for you. Remember these services are confidential Noelle, it is important for you to remain fit and healthy.

The Nuffield Health Assessment is a free service we offer to all C grade employees and above. It is a wonderful service. They really look after you. The results are forwarded to you. KPMG does not receive a copy. The service helps staff to identify their own health requirements. I would highly recommend to you.

With regards to the Occupational Health Review by BUPA, The BUPA occupational health advisers are a wonderful, supportive and caring team that look after KPMG staff. They are very compassionate people and would discuss the range of support mechanisms in place to assist you. Would you reconsider speaking to our occupational health team?

Hello Julie

Thank you for your email.

In answer to your question, considering the horrendous, unbelievable sheer utter hell I have been made to endure over the last five and a half years by various parties – and continue to be made to endure - it's a miracle that I am still standing up. Well, that's what some people tell me.

In relation to 'my health': I did get an **invitation from Nuffield Health** at the beginning of April for a "health and lifestyle assessment", and was also contacted at the beginning of May for an "occupational health review". Thank you for that. I have not taken up these offers as I do not wish to know about any ill-health that has been sown as a result of the very traumatic treatment I have and continue to be subjected to.

In the last three months plus, since the 13 February meeting with Peter and Jeanette, I have adapted to the 'new regime':

- No internet access for nearly two months (cut off on 30 March i.e. the day I met with Peter and Jeanette). It entailed nearly one month of also cutting me off from intranet access. Emotionally, this proved very difficult.

Judging by the 23 April letter I was asked to sign agreeing to being barred from accessing the internet, this regime is going to be a permanent feature.

- Since then, I have also had to cope with everything on my computer screen such as shortcuts placed on the desktop, any type of documents in which I type, as well as mouse pointer flickering every c. 2-3 minutes, maybe even more frequently - (which does not happen when I am not connected to the network)

Last weekend I took all my personal belongings out of the office. It means that I am now in the office only during working hours. (Part of the time hotdesking in Dorset Rise)

That's the current position. As the court hearing at the beginning of May was 'conveniently' postponed until the end of August, who knows what is going to be 'cooked-up' during that time. If more actions are planned through KPMG, judging by Jeanette's comment on 30 March that the landlord was "very persistent" – suggests that it could be a while before I hear anything.

It was followed by email contact from [23 to 26 Feb](#).

Then, as **Bassett** (in a deal with the 'brothers' in [the Jewish-Freemason 'Brotherhood' \(Persecution # 6\)](#)) had, **on 30 Mar 07**, decided to have his very sick, sadistic fun by having my access to ALL the internal KPMG sites, as well as internet cut off (*)...

“these services are confidential”

As “**confidential**” as **KPMG** / on its behalf, its ‘brothers’: [Andrew David Ladsky](#) / others in the [Jewish-Freemason ‘Brotherhood’ \(Persecution # 6\)](#) - approaching my private doctor to:

- determine what evidence I had against KPMG - by **getting him to ask me whether “[I had] recorded [my] conversations at KPMG?”**.

(Needless to say that I did not tell him; e.g. my secret recording of my so-called ‘performance appraisal’ meetings on [09.10.07](#) and [24.10.07](#) – recordings under **sections 8.1 and 9.1 KPMG pg.** When you consider the contents, you can see why KPMG was worried).

- **get him to lie that I had not seen him 1 year previously**, when [he had prescribed me an anti-depressant and tranquilisers](#), and
- **use his lie as an excuse to not give me a referral to a psychiatrist** – for the purpose of ‘mitigating my loss’ in relation to my [03.04.08](#) Claim against KPMG in the [Employment Tribunal?](#)

Events covered under **section 13 KPMG pg.**; in e.g. my [05.08.08](#) letter to ACAS, **line 94 to my Comments after line 129 (section 16 KPMG pg.)**.

The motive behind doing this? So that KPMG could then 'safely' deny my claims:

- its [22.05.08](#) complete rejection (includes my Comments) of my [17.01.08](#) Grievance (**section 11 KPMG pg.**);
- its [PACK OF LIES Defence](#) (includes my Comments) (**section 14**) to my [03.04.08](#) Claim (**section 12**), in which it demanded that it be “*struck out*”.

Er...YES, that’s the KPMG that had ‘[Values](#)’ it summarised as: “[Above all, we act with integrity](#)”!

It is important for you to remain fit and healthy.

- Cue to laugh out loud!...when you consider what KPMG was doing to me: [KPMG page.](#)

The [Nuffield Health Assessment \[05.04.07-15h25\]](#) email, with my Comments] is a free service we offer to all C grade employees and above. It is a wonderful service. They really look after you. While **Bennett** 'appeared' to be kind, in reality, she **acted like ALL the others at KPMG, staff and partners** - supporting the findings of [the Stanley Milgram's 'obedience experiments'](#)...
