Subject: RE: Opted to connect with your logging details..

Yes. That's fine.

You might want to get a temp log on set up also though so we can use that machine in future for you/others.

Subject: RE: Unable to use your spare computer: "the account has expired"

That's because it's a temp machine that we got for Alana months ago and we've probably not renewed it.

Can you let Fin know so that he can renew what needs to be renewed, please?

Ceri

I have just tried using your spare laptop and received the message that "the account has expired".

I will therefore have to wait for your return in order to address the below additional information requirements.

However, in the meantime, I will pursue your query re *Enterprise 2.0: Fad or future? Generation Y...*

I now have access to the 2Way survey giving me the opportunity to experiment as I continue going through the manual.

Kind regards

Noëlle Rawé

Subject: Feedback on your CI report

Noelle - thanks for the CI report that you did, it's very good. I read it yesterday and have some feedback/points for follow up.

Firstly, it might be a good idea to follow up with Jane B: [redacted] to find out what, specifically relating to podcasting, has been included in the plans for the new dot.com approach. Jane is leading the Advisory input into this project.

Section 1 - understandably comments relate to external podcasting - do we have any insight into internal podcasting?

1.1 - are the podcasts a mixture of audio and video or largely audio?

1.2.1 presumably Deloitte's insights are mainly brochureware?

1.2.4 - what are the subjects of Bain and co's podcasts?

Could you do a literature search on Generation Y - re: page 5. Are there general commentaries on what Generation Y expect from employers? **Use the spare laptop - in my left hand drawers** - and ask the research team to help you do the external search.

4.3 - am I right in thinking that Deloitte are making use of RSS in addition to podcasting - i.e. more complete use of new media?

4.3 - can you look up ... r.com and see if this is a commercially available RSS new feed?

Do you think you could complete by the end of the week?

Thanks a lot
Ceri

Subject: RE: **Opted to connect with your logging details..**

Yes. That's fine.

You might want to get a temp log on set up also though **so we can use that machine in future for you/others.**

(NB: If the linked documents don't open, try with:

NOTE that [the 23 Apr 07 letter Peter Bassett, partner, asked me to sign](#), **barred me from using the internet.**

(It followed **KPMG cutting me off from the entire network for 24 DAYS**. Discussed: under **sections 3.4 and 4 KPMG page**; also, in my Comments attached to the letter, and to my [25.04.07-13h45](#) email to Bassett and Hughes when I returned the signed letter).

As I wrote in **Header 9** of my [17.01.08](#) Grievance (**section 11 KPMG pg**):

"it confirmed my perception that the true motive in imposing the draconian measure against me, including letting me suffer a whole month of anguish and distress [[section 4.1 KPMG pg](#)], is to humiliate and demean me.

Concurrently, I cannot help perceiving it as 'punishment' for 'daring' to stand-up and fight for my rights against [a rogue landlord and his equally rogue aides](#)

At **lines 358-359** I wrote: *"It leads me to feel that, since 30 March 2007, [[sections 3.4 and 4 KPMG pg](#)] a perverse game is being played intended to cause me distress, humiliation and demean me."*

As I reported in the subsequent paragraphs, **my being asked to use the spare computer was used to add to the [criminal psychological harassment](#) [[section 6\(4\) KPMG pg](#)]**.

I also reported this under:

- **(1)- para.12** of my [03.04.08](#) Claim against KPMG (**section 12 KPMG pg**) in the [Employment Tribunal](#) (**section 16**);

- (2)- lines 87-103 of my [05.08.08](#) letter to [ACAS](#) (section 16).

Of course, in its [PACK OF LIES Defence](#) against my [03.04.08](#) Claim, under **para.12(2)**, KPMG DENIED that “*it had caused me extreme distress*”.

As I reported in my [05.08.08](#) letter to [ACAS](#), under **lines 87-93**:

“[Quoting **para.12(2)** of KPMG’s ‘Defence’] “**KPMG denies that it caused me “extreme distress” for practically the whole month of April 2007** (point 33.5) [of my Claim]

and that it implemented “supervised”, “limited relaxation of the restrictions” on access to the Internet to “allow [me] to continue [my] work and alleviate [my] alleged distress”.

“As I wrote in my [1 July 2008](#) request [section 15.2 [KPMG pg](#)], the “**limited relaxation**” took place on [8 August 2007](#) (point 12). Hence, **this was more than 4 months after barring me from accessing the Internet on [30 March 2007](#).**” [section 6(4) [KPMG pg](#)]

[That's because it's a temp machine that we got for Alana months ago](#) and [we've probably not renewed it](#).

I don’t recall. I assume it must have been a different one from the one Hughes asked me to use in her [07.08.07-19h10](#) email.

Can you let Fin know so that he can renew what needs to be renewed, please?
