Objet : Re: AGM TOMORROW

Dear Diana

Just to say that it was lovely to meet you yesterday - glad you arrived home safely. You are a very elegant person with spirit and if it was not for you Sheida Noelle and I would not have met - we had a good talk after the meeting and hopefully we can combine our strengths to fight the evil in the UK which has been allowed to take over our lives

Please do not think I am being negative but Noelle agreed with me on this To be a little careful about Ms. S [REDACTED] - it may be that she is genuine but you have had people infiltrate CASIA before in order to discredit it - please keep my thoughts between myself, you and Noelle

I know I have only attended an AGM for the first time yesterday but I have been a member for a while now. Ms. S [REDACTED] appeared out of the blue and although she has a court case pending this can easily be arranged by "them" in order to make her appear genuine and then she will get everyone's trust. Remember it was she who asked for everyone to tell her about themselves - what they do, what they are experiencing etc.

After the meeting Noelle asked Ms. S [REDACTED] what she wanted from CASIA and she answered that she wanted nothing she would bring something to CASIA - I feel that most people join CASIA because they have been through terrible experiences and need help - she seems overly confident and bubbly and not particularly stressed and it did not fit the profile - something not quite right there.

An organised March with the "thousands" of people she can drum up would be fantastic - but what if it turned into a violent demo? - CASIA would be discredited. ( [REDACTED] did this to the Poll Tax peaceful demos in London - she sent in thugs dressed as skinheads and the demonstration turned violent and the people lost their right to protest)

I checked up on her and I think I found her - she not "Knightsbridge" based but [REDACTED] an area where several of the villains of my situation live including the Bent Solicitor Wilson - an inspector in the police force told me "it is all [REDACTED] and [REDACTED] in [REDACTED] (meaning the organised crime and control) - and I noted from Noelle's website that there are also [REDACTED] and [REDACTED] connections to her situation - some are the same as mine - etc

She may be involved in CAB and charity work but as we all know for crime now (money laundering) and CAB in [REDACTED] will block you from getting help. (her intention may be to turn CASIA into a charity) I was fortunate enough to be accepted and helped by a CAB in [REDACTED] who are I believe honest.

You may disagree with me but it does not harm to be a little careful

These people (THEY) are trained in people skills, acting skills etc - HOWEVER LOOKING ON THE BRIGHT SIDE - IF "THEY" HAD TO INFILTRATE A CASIA AGM THIS YEAR THEY MUST THINK THAT CASIA IS A THREAT TO THEM AND THEIR EMPIRE OF CRIME!!!

Objet : Re: : Webhosting and requirements costs etc more detail

Dear Diana

I hope you enjoyed the gardening. Andrew has gone to a Barbeque but I am feeling a bit hayfeverish (first time

in ten years) and I have to prepare for Friday which, as you know, is never ending and time consuming paperwork. But I now have a little time to give you more detail about the Webhosting:-

The reason we used Dan in USA about 4 years ago for [redacted], because our Website designers in Cardiff, someone in [redacted], and our promotion company etc became complicit and we found the link that should take people to our e mail for product and information was going to them. The evidence pointed to piracy of our product disguised as "one off DJ promos". (Of course - the Music Business is also corrupt so no one was punished and the [redacted] (equivalent of LCS and Ombudsman) covered it all up. Dan explained that in USA the legislation is very strict regarding websites also it is more secure and no one from UK could take it down if they chose to.

Objet : DENISE SMALL CLAIMS COURT

Hi Noelle

I have just returned from the Small Claims Court re the damage to my flat by one of "them"

If it helps you in any way I think that there is a light at the end of the dark tunnel you and I and many others have had to go through. I was given help from the [redacted] (your local CAB needs to refer you and I had to use one outside [redacted] because of obvious reasons - I was fortunate enough to be referred from [redacted] CAB in [redacted] but this is not usual - I think they realised my problem) - they can deal with service charge issues etc.

I was assigned an incredibly good Junior Barrister who obviously I was wary of but he was amazing in the Court and the Judge also appeared NOT to be one of "them" and it is helping me to restore my faith in the UK legal system - but we need to wait and see. This is because the new government coalition is in its early days and there is definite change. I have discovered that Barristers seem to be more effective than Solicitors and not so open to the "C" word.

My former neighbour/freeholder was refusing to mediate unless his legal costs were paid by me. The Court took a very dim view of this and he also sent several witness statements - the policeman who arrested Andrew and took my PC/two of his tenants/the estate agent who sold his flat for him/someone who said he was the builder and a Surveyor from [redacted] council building control !! They all lied in their statements and contradicted each other. Most of them came to the Court in person!!! "THE HEAVY MOB" They went on in their written statements about Andrew's court case and that me and Andrew had harrassed Mr. [redacted] the Defendant since 2003. The policeman was derogatory and I will add to my complaint at the IPCC about him giving a statement in a CIVIL matter.

The Surveyor from [redacted] and the policeman - both being paid out of the public purse to protect this person who has damaged my flat and whose father is a wanted criminal registered at the building and claiming benefits - it is beyond belief and I am trying to get someone in the media to take an interest.

But the statement from the Surveyor was late and he was not there - so the Judge adjourned it!! This is what I needed and I can now go forward to Mediation.

I am not there yet but getting there after 9 years of hard slog with Andrews help and there are many other areas I will now open up in order that people like us can start exposing these crooks and their associates for what they are!!

Objet : RE IS ALL OK?

Dear Noelle

I just wanted to check if everything was ok with you

You know if you wanted to go back to live near your family you can sell and sort out any payments after the sale prior to completion

I have known loads of people to do this as long as the service charge etc was reasonable and not extortionate

Also did you check the insurance docs and do they include the new additions to the building? I can almost guarantee the insurance will not be valid and you would have them over a barrel - it is a criminal offence to withhold this information from you

Objet : HI NOELLE ARE YOU STILL AROUND?

Dear Noelle

I havnt heard anything from you and hope you are well and still fighting

Have you checked the status of Jefferson House?  
If it is listed then they have all committed crime by extending and altering it.  
I am sure it could be in Conservation area or Listed as it is an attractive old building
