Flat 3, Jefferson House

London SW3-1AX

Monday 4th Nov 2013-

Dear Noelle,

I read with great interest **your complaint about Judge Nicholson at West London County Court 5.**
I have similar problems... He struck out my counterclaim and defence.... And acted extremely
unfair. I did write directly to the Court- to make a formal complaint- but all ignored.

My case is- the freeholders claim to service charges- but I had a counterclaim- as extreme (and
I mean extreme) damages incurred to the ground floor flat- in Mansions... My
daughter with a small child of 3 years- moved into the flat early Sept- 2012 and 7th Dec had to
leave- with the water tank at the top of the building burst and water poured into the ground
floor flat- totally destroying the Central heating... which could have blown up... and also if
reaching the electrics could have caused fire... It was extreme danger to life. In addition an
other ongoing problem was ignored by the Freeholders- causing damage to the same flat... and
had to pay Holland Damp proofing to carry out repairs.

I presented the Court with 3-5 formal letters from Large Co- stating the two problems were
caused by the (Managing Agents) and the Freeholders negligence... and would even have
caused death!!!- if this was not detected- For not to mention- the flat could not even be let out-
(and my daughter does not dare move back in)

The Judge- not only "moaned" and complained that the 43 page enclosures I submitted- was
too long for him to read- yet these were copies- from professional bodies- stating in writing that
ALL damages were due to negligence/lack of maintenance... Plus also documents- of my
costs of carrying out repairs, replacing the central heating. etc but said some documents were
sent to me- Yet NO documents were received!! =hence my counterclaim struck out!!

In addition 2 days before **the paramilitary hearing- I did fax a and post a letter with further
info- ... yet he said- West London Court NEVER received these...** (Yet I had proof/receipt
for both to this effect)

Then additional thousands of pounds addition costs were added by the other party's solicitors
were added- within days before the hearing - some stated that I the defendant- **failed to pay
court fees-** and the Court confirmed this to the Claimant- hence further costs..... yet I have
full printed receipt that I paid court fees.

I was hoping we could meet and take action

Hope to hear from you- as I can not get your telephone no- being told the name is too
long... and they can not find you at that address..

Kind regards

Irene

I can go on and on... lot more errors- I also wrote to him via the court- and no reply been received- ignored.
