

- Re the tone of the letter: In mine I merely reported the facts and asked what happened

* "You automatically assume that whatever goes wrong in your flat originates in my flat"

- As evidenced by what I report on my website about events in my apartment. NO I DO NOT (Persecution #1416)

The occasion on which his apartment was confirmed as the cause was in Dec 1991: header 13.79 (pg 116-117) of my 02.02.05 complaint to RICS against me then MRJ; 24.03.92 letter from MRJ about the insurance.

Hence: 22 YEARS AGO!

12th May 2014

Ms.
N. Rawe
Flat 3 Jefferson House
11 Basil Street
London SW3 1AX

Dear Ms Rawe

I am in receipt of your letter of the 11th May 2013 and quite frankly bloody annoyed about it. Why do you automatically assume that whatever goes wrong in your Flat originates in my Flat which is unfortunately situated right above yours.

Let me remind you, because you obviously have forgotten what is taking place presently in our building. All Residents had a letter from the contractor that they needed access to all Flats to see to each Flats water system on Thursday the 8th May 2014. Further more we were asked not to use any water between certain hours on that day. I certainly stuck to that arrangement and did not use any water on that day. At 15h45 I asked the porter Paul to find one of the engineers to see to my water system in my Flat because I needed to be in my Business by 16h15. The engineer arrived within 5 minutes and did whatever he needed to do and assured me that from now on I could use the water without being poisoned. I left my Flat immediately without using any water.

From the above explanation it must be obvious even to you that your letter should have been addressed to the contractors who are installing a new Boiler for the hot water system and the central heating rather than to me but no, it had to be my fault!

In future do a bit of thinking if that is possible before you write silly letters to me.

Yours sincerely

Flat 8
