Dear Madam

See my comments to the 03.04.07 notice

**ROOTSTOCK OVERSEAS CORP -V- YOURSELF**  
**WEST LONDON COUNTY COURT**  
**CLAIM NO. 7WL00675**

So "disproportionate and irrelevant" that, added to my 03.06.08 Witness Statement, it led the mafia to issue me with a 06.06.08 Notice of Discontinuance of "ALL the claims against [me]" - Portner # 31

We received your letter dated 21st May 2008 enclosing two lever arch files of copy documents, you wish to rely upon at the hearing of this claim. The majority of the documents provided (without any request from us), are disproportionate and irrelevant to the issues in the proceedings.

But not "too busy" to act as evil lapdogs for racketeers such as Portner and Andrew David Ladsky

Please understand that the Courts are extremely busy and therefore you must contain your issues to the present claim of the outstanding services charges.

This case is listed for a fast-track hearing with an estimated length of one day. It is highly unlikely that the Judge hearing this case will have sufficient time to read the very voluminous bundle of documents you have submitted as well as hear oral evidence and submissions on both sides within one day. We would suggest therefore (subject to the Court's approval) that this case be transferred to a Multi-Track listing with a estimated length of hearing of 2 days otherwise we risk being adjourned to a date months ahead with the ensuing additional expense.

We await hearing from you.

That way the mafia will have by-passed the additional requirements for multi-track e.g. case management hearing

Yours faithfully

**PORTNER AND JASKEL LLP**

As the double-act evil monsters District judge Nicholson and Ryan had opted to ignore ALL the evidence I supplied: they would continue doing the same thing
